EARLY ORDER ADVANTAGES

At Amjay Ropes and Twines we want to reduce the time it takes to fulfill your needs!

Bearing in mind some of the most demanding issues we have faced and can face in the future - such as: strikes, equipment or containers shortages, pandemics, weather-related issues, among other... Amjay has developed the **Early Order Program**, guaranteeing you receive your order in full and in time.

By sending us an Early Order, we can guarantee you:

✓ **Full Product Delivery**

You will have no concerns with limited availability – we ensure your order is fulfilled and available regardless of seasonal demand.

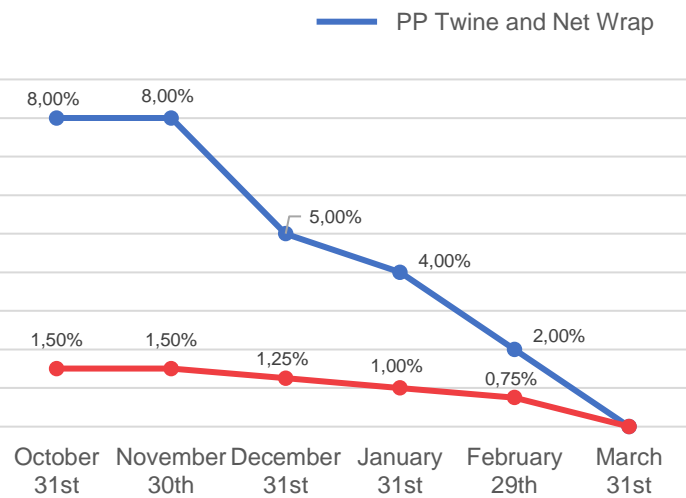

✓ **On Time Delivery**

You will have what you need when you need it by allowing Amjay Ropes and Twines to schedule and organize shipments in advance. Don't worry with delays!

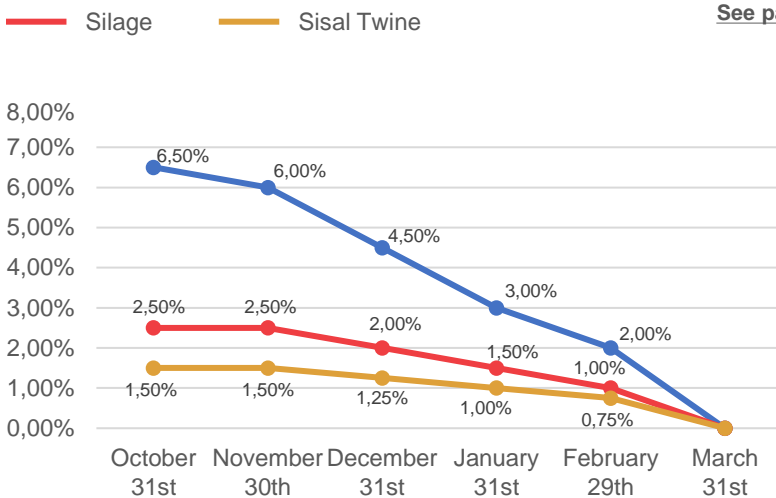

✓ **Cost Savings**

You will have access to our highest levels of discount which allows you to start financially planning the forthcoming year.

The UNI-TECH technology is the **BEST development EVER MADE** in the production of high performance baler twines range and brings you the self-sufficiency you need in the field. A whole new technology, equipment and production system and know-how allows us to produce longer, **thinner and stronger twines**, giving you **much more benefits**.

Features of UNI-TECH twines:

- **Thinner twines** with **highest knot resistance**;
- Higher performance with the **most competitive cost per feet**;
- Reduced transport and labor costs;
- **Improved performance** on billhooks and knotting system;
- **Higher baling speed**;
- Fewer bales per hectare due to the weight capacity of each bale;
- Dense and compact bales, which results in less dry matter loss during transportation;
- **Less downtime in the field** to refill box holder;
- Environmentally friendly --> **Less plastic per bale**.

The **BEST TWINE** in the market for your
HIGH DENSITY BALES !!

SISAL AND BINDER TWINES

GRAND
HARVEST

Sisal baler twine, as a natural fiber, can play a very important role in **environmental protection** acting as a **substitute for other synthetic products**. The fiber naturally biodegrades into the soil and thus does not require removal from the field by the farmer.

Advantages:

- Uniform twine thickness
- Guaranteed minimum tensile strength
- Knot and amendment free
- Treated to resist rotting, mold, insects and rodents

SILAGE FILM

The process of fermentation only runs properly under rejection of air.
And we have the best product for you!

Less air, better silage!

Advantages:

- Great puncture resistance
- Bale size improvement and shape consistency
- High performance silage film that delivers high feed value efficiently and profitably
- Trouble-free wrapping
- 12-month UV guarantee
- Available in White. On request: color Green
- Available in 20' and 30' mono layer and/or five layers.
- Available in 1.0 mil. On request: in 1.2 mil or 1.5 mil

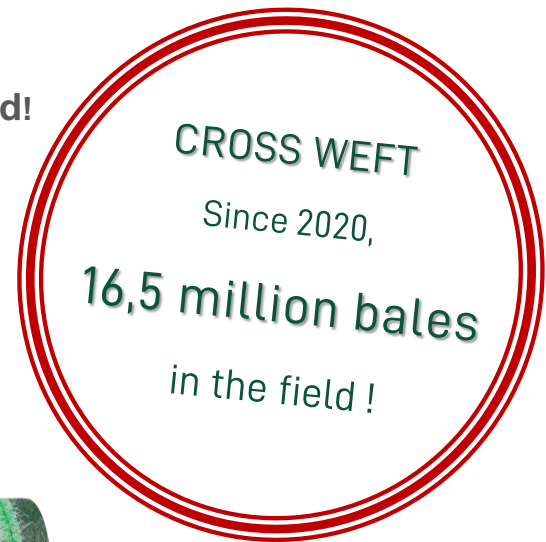

Reliability, Endurance, Performance...

That's CROSS-NET: **Eventually, the best net wrap in the world!**

Ideal for more demanding applications.

Advantages:

- Cotesi patented **cross weft technology**;
- If a warp or weft are cut, the net wrap will still hold the bale;
- Withstands more pressure;
- Extra crop protection

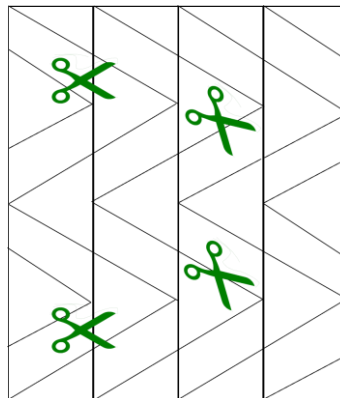

Applications:

- Hay
- Straw
- Corn Stalk

Available in:

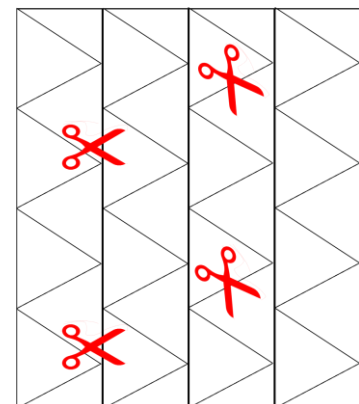

- 48" x 9 840'
- 51" x 9 840'
- 64" x 7 000'
- 67" x 7000'

**Cross-Net
Construction**

Does not open the net.

**Standard

Opens the net.

GRAND HARVEST NET WRAP

GRAND
HARVEST

This is the **most reliable product** you can have in the market.

A combination of advanced polymers technology with a high developed production process.

Available in:

- 48" x 9 840'
- 51" x 9 840'
- 64" x 7 000'
- 67" x 7 000'

Applications:

- Silage
- Hay
- Straw

NYTRO NET WRAP

NYTRO™

This product offers you **longer sizes** of net wrap.

Which means: **Less downtime in the field** > More bales per day with **less stops to refill.**

Available in:

- 48" x 12 500'
- 51" x 12 500'
- 64" x 9 000'
- 67" x 9 000'

Applications:

- Silage
- Hay
- Straw

OTHER CROP PROTECTION PRODUCTS

SHEETING / BUNKER COVERS

- The white/black film's white surface reflects light energy, and the black layer provides 100% opacity;
- The free-fall folded one-piece cover does not require sealing or taping, saving time and increasing your productivity;
- High strength at the folds results in reduced punctures, tears, and performance issues.

Technical Information:

- Available in 5 mil, 6 mil and 8 mil thickness;
- Black and white;
- Guaranteed UV Stability for 12 months;
- Manufactured of the highest quality materials and subject to stringent quality controls;
- Other references available upon request.

SILAGE BAGS

A preferred storage system for silage is bagging and we offer quality products to help you be cost effective.

Technical Information:

- Available in 6,5 mil up to 9 mil thickness, upon request.

GRAIN BAGS

Storage of grains using the bagging method is cost effective and we have the quality products you need.

Technical Information:

- Available in 8 mil up to 9,5 mil thickness, upon request.

ELASTIC TUBES

We offer bale tubes that are tear resistant and made for easy handling of your hay bales that will be well preserved.

Technical Information:

- Available in Black / White and White / White, in 4 mil thickness, upon request.

OTHER CROP PROTECTION PRODUCTS

OXYGEN BARRIERS

Protect from dry matter loss in your forage with Oxygen Barriers that help seal and preserve your investment.

Technical Information:

- HytibARRIER, in 2 mil thickness
- Hytidouble: Bunker cover 5 mil + HytibARRIER 2 mil thickness
- Hytidouble: Bunker cover 6 mil + HytibARRIER 2 mil thickness
- Available upon request

END CAPS & BAGS

Our Products offer protection for the start and end hay bales during inline wrapping maximizing your efficiency.

Technical Information:

SIZE CAPS / ROLL

- 88"x72"x 4mil WHITE SILAGE CAP
- 88"x120"x 4mil WHITE SILAGE CAP
- 93"x72"x 4mil WHITE SILAGE CAP
